THE

AMERICAN JOURNAL

OF

SCIENCE AND ARTS.

EDITORS AND PROPRIETORS,
JAMES D. DANA, B. SILLIMAN, AND E. S. DANA.

ASSOCIATE EDITORS,
PROFESSORS ASA GRAY AND WOLCOTT GIBBS,
OF CAMBRIDGE,

PROFESSORS H. A. NEWTON, S. W. JOHNSON,
GEO. J. BRUSH AND A. E. VERRILL,
OF NEW HAVEN,

PROFESSOR EDWARD C. PICKERING, OF BOSTON.

THIRD SERIES.

VOL. XII.—[WHOLE NUMBER, CXII.]

JULY TO DECEMBER, 1876.

WITH FIVE PLATES.

NEW HAVEN: EDITORS.
1876.

TUTTLE, MOREHOUSE & TAYLOR, PRINTERS.

CONTENTS OF VOLUME XII.

NUMBER LXVII.

Page

ART. I.—Contributions to Meteorology, being results derived from an examination of the Observations of the U. S. Signal Service, and from other sources; by ELIAS LOOMIS,.. 1

II.—The Colorado Plateau Province as a Field for Geological Study; by G. K. GILBERT,..... 16

III.—Notices of Recent American Earthquakes; by C. G. ROCKWOOD, Jr.,..... 25

IV.—On Roscoelite, a Vanadium Mica; by J. BLAKE,..... 31

V.—On some American Vanadium Minerals; by F. A. GENTH, 32

VI.—On a Disease of Olive and Orange Trees, occurring in California in the Spring and Summer of 1875; by W. G. FARLOW,..... 37

VII.—On the Reaction of Sulphuric Acid upon Tri-calcic Phosphate; by H. P. ARMSBY,..... 46

VIII.—Dr. Vogel's Color Theory; by M. C. LEA,..... 48

IX.—On a new Crinoid from the Cretaceous formation of the West; by G. B. GRINNELL,..... 81

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics.—True Ethyl Sulphate, MAZUROWSKA, 50.—Anthraflavic and Isoanthraflavic acids, SCHUNK and ROEMER: Sulphonaphthalide, CLEVE: Evolution of Hydrogen by the action of Zinc upon neutral Copper sulphate, L. MEYER, 51.—Decomposition of Ammonium nitrate by heat, BERTHELOT, 52.—Metallic Cerium, Lanthanum, and Didymium, Drs. HILLEBRAND and NORTON: Gentisin, HLASIWETZ and HABERMANN, 53.—The milky juice of an Asclepiad, Cynanchum acutum, BUTLEROW: Amidines of Monobasic Acids, BERNTHSEN, 54.—Fermentation, P. SCHÜTZENBERGER, 55.—Liquid Films, Dr. SONDHAUSS: Law of Refraction, FOSTER, 56.—Magnifying Glass, J. BROWNING: New Electro-magnet, M. V. SERRIN, 57.—Electro-magnetic Rotations, W. SPOTTISWOODE, 58.

Geology and Mineralogy.—Recent Discoveries of Extinct Mammals by Professor Marsh, 59.—Report upon Geographical and Geological Explorations and Surveys west of the 100th Meridian, 61.—Historical Sketch of Geological Explorations in Pennsylvania and other States: Second Annual Report of the Geological and Agricultural Survey of Texas, 63.—Primordial of Scandinavia: Glacial flood, 64.—Ice Age in Great Britain: Geology of Spitzbergen, 65.—The Coal Eras of India, and a Permian or Triassic Glacial Period, 67.—Graptolites: Region of eruptive rocks of the District of Schemnitz, Hungary: Volcanic Phenomena of the Alps, 69.—Reliquiæ Aquitanicæ: Dalmanites dentata, by Dr. S. T. BARRETT, 70.—Note by Dr. Hayden, on the ore-bearing rocks of Colorado: Geology of Sumatra: Report of the Geology of Wisconsin: Geology for Students and General Readers: Bulletin of the U. S. National Museum, 71.—Chemisch-genetische Beobachtungen über Dolomit: Pittsburgh Meteoric Iron, F. A. GENTH, 72.

Botany and Zoology.—Tree-Planting, Prizes for Arboriculture, 73.—Heteromorphism in Epigæa, 74.—Essay on the Immigration of the Norwegian Flora during alternating Rainy and Dry Periods, 76.—Genera Plantarum, 77.—Botany of California, 78.—Quarterly Bulletin of the Nuttall Ornithological Club, 79.

Astronomy.—Astronomical Tables, comprising logarithms from 3 to 100 places, 79.
Miscellaneous Scientific Intelligence.—Probability of error in writing a series of numbers, 79.—Record of Science and Industry for 1875: Report of the British Association for 1874: Elements of Physical Geography: Transactions of the Connecticut Academy, Vol. III, Part I, 80. *Obituary.*—Angelin: E. Billings, 80.

NUMBER LXVIII.

Page

ART. X.—The Colorado Plateau Province as a Field for Geological Study; by G. K. GILBERT, ... 85
XI.—Note on the development and homologies of the anterior brain-mass with Sharks and Skates; by B. G. WILDER, 103
XII.—New form of Compensating Pendulum; by J. L. SMITH, 106
XII.—Aragonite on the surface of a meteoric iron, and a new mineral (Daubréelite) in the concretions of the interior of the same; by J. L. SMITH, ... 107
XIV.—On some of the changes in the Physical Properties of Steel, produced by Tempering; by A. S. KIMBALL, ... 110
XV.—A Glass circle for the measurement of Angles; by L. M. RUTHERFURD, ... 112
XVI.—Friedrich Wilhelm August Argelander, ... 113
XVII.—On Dinitroparadibrombenzols and their Derivatives; by P. T. AUSTEN, ... 118
XVIII.—On a New Formation of Dinitroaniline, and some Reactions of Dinitrobrombenzol; by P. T. AUSTEN, ... 121
XIX.—On Southern New England during the melting of the Great Glacier, Appendix; by J. D. DANA, ... 125
XX.—The Greenstones of New Hampshire and their organic remains; by G. W. HAWES. With plate V, ... 129

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics.—Constitution of Naphthalene, WREDEN: Conversion of normal into iso-butyric acid, ERLENMEYER, 138.—Influence of Asparagin on Saccharimetry, CHAMPION and PELLET: Alkaloid Aricine and some related bodies, HESSE: Analysis of Mixed Liquids, SIEMENS, 139.—Viscosity of Salt-Solutions, GROTRIAN: Viscosity of Gases, 140.—Simultaneous Sounding of two Notes, 141.
Geology and Mineralogy.—Critical Observations on Theories of the Earth's physical evolution, C. E. DUTTON, 142.—A Report on the Invertebrate Cretaceous and Tertiary Fossils of the Upper Missouri Country, F. B. MEEK, 145.—Shower of Volcanic Dust over Scandinavia: Carrara Marbles: Markings supposed to have been made by man with stone implements on bones of a Balænotus of the Lower Pliocene of the valley of Fine, Italy: Serpentine and Eozoon, 147.—Experiments on Schistosity in rocks, M. DAUBRÉE, 148.—Natural History Society of Minnesota, 4th Annual Report: Revue de Géologie: McCoy, Paleontology of Victoria: Report on the Survey of a line to connect the waters of the Neuse and Cape Fear River in North Carolina, 149.—Mines and Mineral Statistics of New South Wales: Minerals of the thermal spring at Bourbonne-les-Bains, 150.—Inclusions in Gems: Geological Map of Europe: Ihleite, Friedelite: Analcite not isometric, 151.—Angewandte Krystallographie, von A. SADEBECK: New Journal devoted to Mineralogy and Crystallography, 152.
Botany and Zoology.—The Oaks of the United States, by Dr. G. ENGELMANN, 153.—M. Gristave-Adolphe Thuret, Equisse Biographique, par M. ED. BORNET, 155.—Fragmenta Phytographiæ Australiæ, contulit Liber Baro FR. DE MUELLER: Flora Braziliensis, ed. AUG. GUIL. EICHLER: The Forest, Products of Michigan at the

Centennial Exposition, by J. W. BEAL: Contribution to the Flora of Iowa, by G. C. ARTHUR: Locust invasion of 1874, 156.—Monograph of the Geometric Moths, by A. S. PACKARD, 157.—Tabulate Corals: Rafinesque's Ichthyologia Ohiensis, D. S. JORDAN: Synopsis of American Wasps, by H. DE SAUSSURE: Ophiuridæ and Astrophytidæ, T. LYMAN: Bulletin of the U. S. National Museum, 158.

Miscellaneous Scientific Intelligence.—Oceanic Circulation, WM. B. CARPENTER, 159.—Reclamation: Men of Science, from abroad, at the U. S. International Exhibition, 161.—Connection of the Caspian and Black Seas: Geographical Survey of the State of N. Y., 162.—Appalachia: Am. Association for 1876: Physical Geography, by E. J. HOUSTON: Proceedings of the Poughkeepsie Society of Natural Science: Kansas Academy of Science, 163.—*hkl*, 164. *Obituary*—Porter Poinier, 164.

NUMBER LXIX.

Page

ART. XXI.—Gases contained in Meteorites; by A. W. WRIGHT, 165

XXII.—Schœnbein's Test for Nitrates; by F. H. STORER, .. 176

XXIII.—Note on the double decomposition of Potassic Bromide and Sodic Chloride; by J. H. BILL, ... 190

XXIV.—Note on Erosion; by JAMES D. DANA, ... 192

XXV.—Classified list of Rocks observed in the Huronian Series, south of Lake Superior; by T. B. BROOKS, ... 194

XXVI.—Seventh Catalogue of new Double Stars; by S. W. BURNHAM, ... 204

XXVII.—Account of a new Meteoric Stone; by J. L. SMITH, 207

XXVIII.—Five new Variables, and a new Planet, found at the Litchfield Observatory of Hamilton College; by C. H. F. PETERS, ... 210

XXIX.—On the Relation of Franklinite to the Spinel Group of Minerals; by GEORGE H. SEYMS, ... 210

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics.—Thermic formation of Ozone, BERTHELOT, 212.—Hydrogen antimonide or Stibine: Compounds of Columbium and Tantalum with Nitrogen and with Carbon, JOLY, 213.—New mode of effecting the substitution of Chlorine or Bromine in Organic Compounds, DAMOISEAU: Physical Isomerism, LAUBENHEIMER, 214.—Synthesis of Allantoin, GRIMAUX: High Pressure Manometer, M. L. CAILLETET, 215.—Waves on Lake Geneva, FOREL, 216.—Friction of the Ether, W. M. HICKS: Specific Heat of Gases, M. M. KUNDT and WARBURG, 217.

Geology and Mineralogy.—Geological Survey of Canada, A. R. C. SELWYN, 218.—Geological and Geographical Survey of the Territories, F. V. HAYDEN. 219.—Report of the Exploring Expedition from Santa Fé, New Mexico, J. N. MACOMB, 220.—Report of Explorations across the Great Basin of the Territory of Utah, J. H. SIMPSON: Fossil marine plants from the Coal-measures, LESQUEREUX, 221.—Remarks on Fossils from the Ashley Phosphate Beds, LEIDY, 222.—Fish Remains of the Mesozoic Red Shales. LEIDY: Rhætic Strata of the Val di Ledro, in the Southern Tyrol, T. N. DALE, JR.: Mammalia and Traces of Man found in the Robin-Hood Cave, W. BOYD DAWKINS, 223.—Evidences of Theriodonts in Permian Deposits elsewhere than in South Africa, R. OWEN, 224.—Silurian dioryte, chlorite, slate and serpentine in Newfoundland, 225.—Oldhamia in Wisconsin: Reef-building corals in the Tasmanian Tertiary: Carboniferous Pulmonates, 226.—Brachiopods of the Swedish Paradoxides beds of Sweden: Geological Survey of Brazil: Geological Map of Illinois: Report on the Chemical, Mineralogical and Microscopical characters of the Lavas of Vesuvius, S. HAUGHTON and E. HULL, 227.—Crystallographic relations of the three types of Chondrodite, M. DESCLOIZEAUX, 229.—Die Mineralien Badens nach ihrem Vorkommen, G. LEONHARD,

230.—Studien über Mineral-Pseudomorphosen, F. E. GEINITZ: New Minerals, C. U. SHEPARD, 231.

Botany and Zoology.—Structure and Movements of the Leaves of Dionæa muscipula, CASIMIR DE CANDOLLE: Diatoms in Wheat-straw, 232.—An intoxicating Grass: Primitiæ Monographiæ Rosarum, M. CRÉPIN: Does the Age of a tree influence the time of leafing, 233.—Practical Botany, by A. KŒHLER: Flora of Southwestern Colorado, T. S. BRANDEGEE, 234.—Darwiniana, A. GRAY, 235.—Note on Gigantic Cephalopods, A. E. VERRILL, 236.—Comparative Zoölogy, by J. ORTON, 237.—Geographical Variation among North American Mammals, J. A. ALLEN, 238.—Archivos do Museu Nacional do Rio de Janeiro: Etudes sur les Echinoïdées, S. LOVEN: Bulletin of the U. S. National Museum: Natural History of Kerguelen Island, J. H. KIDDER, 239.

Miscellaneous Scientific Intelligence.—Elements of Physical Manipulation, by E. C. PICKERING, 240.—Mechanical Theory of Heat, etc., by R. S. MCCULLOCH: Theory of Ventilation, FRANCOIS DE CHAUMONT, 241.—Ninth Annual Report of the Trustees of the Peabody Museum of American Archæology and Ethnology, 243.—*Obituary.*—Professor McCheeney: Edward Newman: Ehrenberg.

NUMBER LXX.

Page

ART. XXX.—On Cephalization; by J. D. DANA. Part V. Cephalization a fundamental principle in the Development of the System of Animal Life, ... 245

XXXI.—Electro-magnetic Machine constructed at the Cornell University workshop; by WM. A. ANTHONY, ... 251

XXXII.—Sea-bottom Deposits observed during the Cruise of the Challenger; by JOHN MURRAY, ... 255

XXXIII.—Gmelinite from Nova Scotia; by A. B. HOWE, .. 270

XXXIV.—Occurrence of Durangite in the tin-bearing region of Durango, Mexico; by HENRY G. HANKS, ... 274

XXXV.—Occurrence of Grahamite in the Huasteca, Mexico, and Notice of the Geology of that region; by JAMES P. KIMBALL, ... 277

XXXVI.—"Geological Chart of the United States east of the Rocky Mountains, and of Canada;" by F. H. BRADLEY, 286

XXXVII.—Observations upon the latest Planetoids; by C. H. F. PETERS, ... 291

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics.—Estimation of Nitrogen in Potable Waters, FRANKLAND: Absorption of Nitrogen by Organic substances, BERTHELOT, 292.—Action of the Copper-zinc Couple on Chlorates and Perchlorates, ECCLES: Supposed shifting of Atoms, DEMOLE: Crystallized Glycerine, VAN HAMEL ROOS, 293.—Lactic acid obtained from Inosite, VOHL: Synthesis of Polybasic Acids by the action of Carbon dioxide on Salicylic acid, OST: Freezing of Colloids, Prof. GUTHRIE, 294.—Explosion of Fire Damp, MALLARD: Velocity of Electricity, W. SIEMENS, 295.—Polarization Currents, SCHILLER and CALLEY: Magnetic Induction, CHWOLSON: Constants of Nature, 296.

Geology and Mineralogy.—Age of the Vertebrate Fauna of the Eocene of New Mexico, Prof. COPE, 297.—Geological position of the Serpentine Limestone of Northern New York, J. HALL, 298.—Geology of the Southern Counties of New York and adjacent parts of Pennsylvania, J. HALL, 300.—Erosion of Rocks, E. B. ANDREWS, 304.—Geology of the Eastern portion of the Uintah Mts., J. W. POWELL, 305.—Gigantic Bird from the Eocene of New Mexico, Prof. COPE, 306.—Fifth Annual Report of the Geological Survey of Indiana made during the

year 1873, E. T. Cox, 307.—Fossil Plants of the Coal-measures of Terrera, in the Atacama district, Chili, 308.

Botany and Zoology.—Sensitive Stigmas as an aid to cross-fertilization of Flowers, W. J. Beal, 308.—On the theory of Evolution, Prof. Cope, 309.—Mimicry in Butterflies explained by Natural Selection, S. H. Scudder, 311.—A Preliminary Note on *Menopoma Alleghaniensis* of Harlan, A. R. Grote, 313.—The Entomological Section of the American Association, Buffalo, N. Y., Address of Dr. LeConte, 314.—Manual of the Vertebrates of the Northern United States, D. S. Jordan, 315.—The Five Senses of Man, J. Bernstein, 316.

Miscellaneous Scientific Intelligence.—Fall of a Meteorite in Kansas City, Missouri, in June, 1876, J. D. Parker: American Association for the Advancement of Science, at Buffalo, N. Y., 316.—Geographical Distribution of Plants and Animals, C. Pickering: Proceedings of the Davenport Academy of Natural Sciences, 320. —*Obituary.*—Ebenezer S. Snell: Prof. Charles Davies, 320.

NUMBER LXXI.

Page

Art. XXXVIII.—Observations on the Displacement of lines in the Solar Spectrum caused by the Sun's rotation; by C. A. Young, ... 321

XXXIX.—Researches in Acoustics; by Alfred M. Mayer, 329

XL.—Address at the Glasgow Meeting of the British Association; by Sir William Thomson, ... 336

XLI.—Address at the Glasgow Meeting of the British Association; by Alfred Russell Wallace, ... 354

XLII.—Notice of new Tertiary Mammals; by O. C. Marsh, 401

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics.—On the Pyrogenic Hydrocarbons in Coal Gas, Berthelot, 385.—Occurrence of Benzene in Rosin Oil, Watson Smith, 386.—On the Constitution of the Benzene Derivatives, Wroblewsky, 387.—On the Action of Malt-extract on Starch, O'Sullivan: Detection of Carbamic acid in Animal fluids, Hofmeister: Friction of Gases, M. Wiedemann, 388.—Effect of Sound on the Radiometer, M. Jeannel, 389.—Fusion of Soft Bodies, M. Pfaundler: Friction of Gases, Kundt: On the Electro-magnetic action of Electric Convection; by Dr. Helmholtz, 390.

Geology and Mineralogy.—Note on specimens of Metadiabase from Connecticut Lake, collected by G. W. Hawes, J. W. Dawson: On Streams of Water beneath Glaciers, Charles Knight: Quinto Apendice al reino mineral de Chili i de las Republicas vecinas publicado en la segundo edicion de la Mineralojia de don Ignacio Domeyko, 395.

Botany.—Flora of British India, by J. D. Hooker: Compositæ Indicæ descriptæ et secus Genera Benthamii ordinatæ, A. B. Clarke: Proceedings of the American Association for the Advancement of Science, 24th meeting, 1875, 397.—

Miscellaneous Scientific Intelligence.—Prof. Huxley in New York: The Eighth Annual Report of the Department of Marine and Fisheries of Canada, 399.—British Association: Diatoms in Wheat Straw, 400.

NUMBER LXXII.

Page

Art. XLIII.—Experiments on the nature of the force involved in Crookes' Radiometer; by O. N. Rood, ... 405

XLIV.—Experiments on the Sympathetic Resonance of Tuning Forks; by Robert Spice, ... 411

Page

XLV.—Types of Orographic Structure; by J. W. POWELL, 414

XLVI.—On the Ethers of Uric Acid; by H. B. HILL, ... 428

XLVII.—Notice of a Meteorite, from Madison Co., N. C.; by B. S. BURTON, ... 439

XLVIII.—On a Recent Discovery of Carboniferous Batrachians in Nova Scotia; by J. W. DAWSON, ... 440

XLIX.—On the association of crystals of Quartz and Calcite in parallel position, as observed on a specimen from the Yellowstone Park; by EDWARD S. DANA, ... 448

L.—Principal Characters of the American Pterodactyls; by O. C. MARSH, ... 479

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics.—On the size of Hydrogen Atoms, ANNAHEIM: On the Atomic Weight of Selenium, PETERSSON and EKMAN, 451.—Nitrogen-measuring Tube, ZULKOWSKY: On the Physical properties of Gallium, BOISBAUDRAN, 452.—New Vapor-density method for substances of high boiling-points, VICTOR MEYER: On Glycero-phosphoric acid from Brain Tissue, THUDICHUM and KINGZETT, 453.—Chemistry, General, Medical, and Pharmaceutical, including the Chemistry of the U. S. Pharmacopœias, JOHN ATTFIELD: A Systematic Handbook of Volumetric Analysis, etc., FRANCIS SUTTON: Chemia Coartata, or the Key to Modern Chemistry, A. H. KOLLMYER, 454.—Lissajous' Curves, M. MERCADIER: Mechanical Equivalent of Heat: Ohm's Law, MAXWELL, 455.—Protection of Buildings from Lightning, MAXWELL: On the Tidal Retardation Argument for the Age of the Earth, JAMES CROLL, 457.—Sound, JOHN TYNDALL: Ansichten über die gepaarten Schwefelverbindungen, GEORGE A. SMYTH, 459.

Geology and Mineralogy.—Report on the Geological Map of Massachusetts, W. O. CROSBY, 459.—Geological Survey of Indiana, Seventh Annual Report, made during the year 1875, E. T. COX, 460.—Geological Map of Scotland, ARCHIBALD GEIKIE: Huronian of Canada, A. R. C. SELWYN: Geological Survey of Michigan, C. ROMINGER, 461.—Memoirs of the Geological Survey of India: Detritus of Rivers, 462.—Mallet's Theory of Volcanic Energy: Geological reunion at the Paris Exposition in 1878, 463.—Recent Discoveries of the Brazilian Geological Commission, 464.—New Minerals: The "Mexican Onyx," 466.

Botany and Zoology.—Relation of Coloration to Environment: Subradical solitary Flowers in Scirpus, 477.—Dictionnaire de Botanique, M. H. BAILLON: Nuovo Giornale Botanico Italiano diretto du T. CARUEL: Flora Orientalis, auctore EDMOND BOISSIER, 468.—On the Barringtoniaceæ, JOHN MIERS: A Catalogue of the Forest Trees of the United States, GEO. VASEY: Morphology of the Carpellary Scales of Coniferæ, 469.—Species, Genera, et Ordines Algarum, J. G. AGARDH, 470.—Notes Algologiques, M. M. ED. BORNET et G. THURET, 471.—Nuttall Ornithological Club: A Course of Practical Instruction in Elementary Biology, T. H. HUXLEY and H. N. MARTIN: On Casting the skin in Menopoma Alleghaniense, A. R. GROTE, 472.

Astronomy.—Intra-Mercurial Planet, 472.—November Meteors, 473.

Miscellaneous Scientific Intelligence.—On the Extirpation of Species, ALFRED NEWTON, 473.—Papers read at the session of the National Academy of Sciences held at Philadelphia, 476.—Proceedings of the Cincinnati Society of Natural History: The Scientific Monthly: The Universal Metric System, ANDREW COLIN, 477.—Bulletin of the Minnesota Academy of Natural Sciences, for the year 1875, N. H. WINCHELL: Arrangements for a Meeting of the British Association, 478.—*Obituary.*—Charles Sainte-Claire Deville, 478.

ERRATA.—On page 459, 20th line from foot, for *Amherst.* read *Andover.*
